

HERE IS WHAT EXPERTS SAY

ABOUT NORDIC NATURALS

"I am delighted to work with Nordic Naturals. The importance of high quality essential fatty acid supplementation for maintenance of cardiovascular health and brain function cannot be overstated. At the Perlmutter Health Center, we rely exclusively on omega oil supplements from Nordic Naturals as their products are unsurpassed for purity, potency and freshness."

"A high-potency product that Johnson (Dr. Weil's nutritionist) likes is Ultimate Omega EPA Formula from Nordic Naturals, which contains both EPA and DHA. It's distilled for purity, and she claims that it doesn't cause you to burp up a fishy taste."

"Nordic Naturals makes a quality brand that is free of heavy metals & other toxins commonly found in store bought brands. The relatively small capsules can be swallowed or chewed, making compliance easier, especially for children. ...Nordic even puts authentic "strawberry essence" in each gelcap..."

"Quality control is an absolute must to ensure the product is free from heavy metals like lead and mercury, pesticides, damaged fats (lipid peroxides) and other contaminants. ...we recommend Nordic Naturals."
